

Justified paragraph in normal font

Furthermore, a subset of English sentences interesting on quite independent grounds is not quite equivalent to a stipulation to place the constructions into these various categories. We will bring evidence in favor of The following thesis: most of the methodological work in modern linguistics can be defined in such a way as to impose problems of phonemic and morphological analysis.

Justified paragraph in normal/bold/italic font

Furthermore, a subset of **English sentences** interesting on quite independent grounds is not *quite equivalent* to a stipulation to place the constructions into these various categories. We will bring evidence in favor of The following thesis: most of **the methodological work** in modern linguistics can be defined in such a way as to *impose problems* of phonemic and morphological analysis.

Justified paragraph in bold font

Furthermore, a subset of English sentences interesting on quite independent grounds is not quite equivalent to a stipulation to place the constructions into these various categories. We will bring evidence in favor of The following thesis: most of the methodological work in modern linguistics can be defined in such a way as to impose problems of phonemic and morphological analysis.

Justified paragraph in italic font

Furthermore, a subset of English sentences interesting on quite independent grounds is not quite equivalent to a stipulation to place the constructions into these various categories. We will bring evidence in favor of The following thesis: most of the methodological work in modern linguistics can be defined in such a way as to impose problems of phonemic and morphological analysis.

Justified paragraph in normal font & some hard spaces

Furthermore, a subset of English sentences interesting on quite independent grounds is not quite equivalent to a stipulation to place the constructions into these various categories. We will bring evidence in favor of The following thesis: most of the methodological work in modern linguistics can be defined in such a way as to impose problems of phonemic and morphological analysis.
